Education

Bachelor of Technology (-
B.Tech.)

Electronics & Communication
Engineering (ECE)

Brilliant Institute of
Technology, Hyderabad

2011 – 2015

Technical Skills

Programming Languages:

C#, Java, Kotlin

Game Engines & Frameworks:

Unity, Unity 6, OpenXR, XR
Interaction Toolkit, MRTK,
SteamVR, VRTK

AR/VR/MR Technologies:

AR Foundation, ARCore, ARKit,
Vuforia, Oculus SDK, Meta
Quest, HoloLens, Windows
Mixed Reality (WMR)

Networking:

Photon Realtime, Photon Voice,
Photon Chat, Unity Netcode

Cloud & Backend:

Firebase, Authentication,
Analytics, Cloud Messaging

Architecture & Development:

Software Architecture,
SDK Development, Design
Patterns, SOLID Principles,

Senior Unity Developer with 10+ years of experience building XR, AR/VR/MR, simulation, mobile, and enterprise applications using Unity and C#. Skilled in OpenXR, AR Foundation, Meta Quest, HoloLens, Photon, Firebase, and cross-platform development for Android, iOS, Windows, and XR devices.

Experienced in software architecture, SDK development, technical leadership, multiplayer systems, performance optimization, and scalable simulation solutions.

Core Competencies

- Unity 3D Application Development
- XR Application Development (AR/VR/MR)
- OpenXR Development
- Mixed Reality & Spatial Computing
- Meta Quest Development
- HoloLens Development
- Multiplayer Networking
- SDK Development
- Software Architecture
- Technical Leadership
- Cross-Platform Development
- Performance Optimization
- Deployment Automation
- Mobile Application Development
- Medical & Scientific Simulations

Experience

Immersivevision Technology Pvt Ltd

Pune

Senior Unity Developer

May 2022 - April 2026

- Developed 20+ science and medical simulation modules using Unity and C#, delivering immersive training experiences for enterprise and educational customers.
- Delivered simulation solutions used for medical and scientific training, improving practical learning through interactive XR experiences.
- Architected reusable simulation frameworks including DICOM Integration, Licensing Systems, Mesh Deformation Tools, Screen Recording Modules, and Automated Installer Generation Systems.
- Led a team of 4 Unity developers, overseeing sprint planning, code reviews, software architecture, deployment automation, and performance optimization initiatives.
- Developed scalable and reusable Unity systems that improved maintainability and reduced development effort across multiple simulation projects.
- Collaborated with product, QA, and business teams to successfully deliver simulation products within project timelines.

Object-Oriented Programming (OOP), Addressables, Asset Bundles, Performance Optimization, Memory Profiling, Debugging, Agile, Scrum, Unity Input System, Scriptable Objects, Assembly Definitions (asmdef), Dependency Injection

Tools:

Git, GitHub, GitLab, Bitbucket, SourceTree, Blender, Visual Studio

Platforms:

Android, iOS, Windows, Meta Quest, HTC Vive, HoloLens, Windows Mixed Reality (WMR)

API:

REST APIs, JSON Serialization, API Integration

Automation:

CI/CD, Build Automation, Deployment Automation

Technologies:

Unity, C#, OpenXR, Firebase, DICOM, Addressables, Asset Bundles, Git, Windows

AfterNow Lab Pvt Ltd

Bengaluru

Mixed Reality Developer

Sep 2021 - May 2022

- Contributed to the development of an XR Presentation SDK that enabled users to create content through a web portal and deploy experiences across XR devices.
- Developed reusable Unity APIs and SDK components supporting content rendering, interaction systems, and device compatibility.
- Collaborated with cross-functional teams to improve SDK usability, stability, and user experience.
- Implemented XR functionality supporting multiple devices and deployment environments.

Technologies:

Unity, OpenXR, XR SDK, C#, REST APIs

Merxius Software Pvt Ltd

Hyderabad

Unity XR Developer

Aug 2017 - Aug 2021

- Developed features for RED, a no-code AR/VR enterprise training and content deployment platform.
- Maintained and enhanced iPad and HoloLens viewer applications supporting AR, VR, and MR experiences.
- Implemented cross-platform XR functionality across multiple devices.
- Optimized application performance, memory usage, and user interactions to improve overall experience.
- Developed enterprise training applications for multiple customer use cases.

Technologies:

Unity, C#, HoloLens, AR Foundation, Vuforia, OpenXR, iOS

Ikvox Software Pvt Ltd

Hyderabad

Android Developer

Jan 2016 - May 2017

- Developed and maintained Android applications using Java and Android SDK.
- Contributed to Feedbot, an enterprise kiosk solution for customer feedback collection and analytics.
- Participated in application design, implementation, testing, and deployment activities.
- Collaborated closely with a four-member development team throughout the software development lifecycle.

Technologies:

Java, Android SDK, SQLite

<> Projects

NextMeet | Multiplayer VR Collaboration Platform

2020 - 2021

- Developed features for an avatar-based PC/VR collaboration platform.
- Implemented multiplayer networking, voice communication, and chat systems using Photon technologies.

- Optimized networking synchronization and user interactions to support immersive multi-user collaboration experiences.

Technologies:

Unity, Photon Realtime, Photon Voice, C#
nextmeet.yolasite.com

SportemonGO XR Experiences

2021 - 2022

- Developed AR and VR fan engagement applications using Unity XR Toolkit.
- Built wrist-tracking AR experiences and interactive VR mini-games.
- Integrated Firebase services for analytics and cloud functionality.

Technologies:

Unity, XR Interaction Toolkit, Firebase, AR Foundation

Rugby AR | Multiplayer Augmented Reality Game

2026

- Working on an AR sports game with AI-driven single-player and multiplayer modes.
- Implemented gameplay systems and Photon-based networking.
- Utilized Unity ML-Agents and Unity Input System to enhance gameplay experiences.

Technologies:

Unity, AR Foundation, Photon, ML-Agents, Unity Input System

Certifications & Awards

- Unity Certified Associate: Game Developer (96%) | Unity Technologies | 2026
- Selected among Top 500 of 5,400 applicants for Google Play × Unity Game Developer Training Program India 2025
- Career Milestone Award | Immersivevision Technology | 2025
- Extra Miler Award | Immersivevision Technology | 2022
